

Murder Suspect Is Sought; Was Seen In Bar In Nevada

Suspect's Stolen Car Found In Reno As Search Is Continued

Early arrest of Stanley William Fitzgerald, 39, Oakland, was anticipated by officers who are seeking the ex-convict for questioning in the murder of George Bonn, 58, San Francisco and the shooting of M. J. Young, 41, Lewiston, California, near Truckee last Wednesday evening.

Reno police this week found the suspect's stolen car abandoned in a parking lot in that city. It is believed the suspect may have fled south to Mexico where he is known to have friends.

In the meantime, Young, recovering from a bullet wound in one leg at the Tahoe Forest Hospital, recounted the shooting. He said he and Bonn met Fitzgerald in a San Francisco bar and he offered to take them to Reno.

They arrived in Truckee about 3:30 August 3 and had a few drinks at a local bar. Fitzgerald then told the two he had to see a man about a tractor and drove out on the old Dog Valley road to Woodchoppers Spring where he procured a .22 calibre revolver and forced his companions to disrobe to their underwear.

After a tense, two hour cat and mouse game during which Young and Bonn attempted to dissuade their attacker from robbing them of \$800 which Bonn had in his possession, a fight ensued and Bonn struck Fitzgerald over the head with a whiskey bottle. The blow had little effect and when the two jumped on their captor, he started firing, one bullet striking Young in the leg.

Bonn was shot twice through the head and three times through the body, Young told officers.

Fitzgerald took the men's clothing and left in the car, saying he would send a doctor. Instead he Continued on Page 10

Meeks Bay Region Wants Fire District

By NINA SLADE

MEEKS BAY—George Kehlet of Meeks Bay reports that a meeting was held last week at the Meeks Bay theater by a group of Rubicon-Tahoe homeowners to organize a fire district for the area.

Acting Secretary Robert Latchin presided at the meeting.

It is vitally important to all homeowners and resort owners in this section of El Dorado County to support a fire district which is sorely needed. Such support would result in a fire protection district here that would adjoin the present limit of the Tahoe City district.

This year especially, after five dry years, property owners are particularly helpless against fire in the area which has no proper facilities for fighting.

Kehlet also advised us that the Carson-Truckee Water Conservation District, whose president is Robert Peckham, will conduct a tour of the Prosser Creek dam area on August 18 to observe its progress.

IMMUNIZATION CLINIC TO BE HELD AUGUST 19

On August 19 the Nevada County Health Department is offering polio and other immunizations for preschool children and adults. The free clinic will be held at the old elementary school in Truckee between 12 noon and 1:30 p. m. Doors close promptly at 1:30 p. m.

The polio season is here so everyone should complete their immunizations. If it has been seven months since you had your second injection you are due for the third. If a year has passed since you have had your third you are due for the fourth polio injection now.

Remember—August 19 is Immunization Day!

Parking Ordinance To Be Enforced As Signs Are Installed

Additional two-hour parking signs have been installed along the main street in Truckee and Chief Deputy Sheriff Roy F. Waters announced that enforcement of the county ordinance will be started immediately.

The signs call attention to the ordinance which provides that parking on the north side of the street between the hours of 9 a. m. and 6 p. m. for more than two hours is unlawful.

Violators, Waters said, would be cited to appear before Judge Fosten Wilson.

Installation of the signs was done at the insistence of the Truckee Donner Chamber of Commerce after it was pointed out that many car owners in the town are using the main street as a permanent parking place, not allowing for shoppers to utilize the limited area.

The chamber is also sponsoring a public parking lot, financed by main street merchants, in an effort to relieve the critical parking situation.

Travel Record For Highway 40 Is Set In Month Of July

Quarter Of Cars Entering Checked At Truckee Station

A new all-time high for vehicles entering California by way of Truckee was reached last month when 144,074 cars, 4,919 trucks and 1,148 buses, carrying a total of 430,385 passengers, were checked at the local department of agriculture checking stations.

This mark exceeded last July by 33,239 cars and 124,481 passengers and accounted for approximately a quarter of the travel into the state.

The Truckee stations were far ahead of all other checking points in the state, with Yermo being in second place with 97,598 cars and 303,591 passengers. All other stations had less than half the Truckee count, the report from the department of agriculture reveals.

At Meyers on Highway 50, 38,732 cars, 357 trucks and 73 buses, with a passenger total of 108,909, were checked. This was a gain of 1,158 cars over July last year.

Traffic through Truckee during the past five years have virtually doubled, according to the record. In July, 1955, there were 79,130 cars, 3,474 trucks and 863 buses, with a total of 264,661 passengers checked at the local station, indicating the steady increase of travel. It is anticipated that the count may double again during the next five years with completion of the new four-lane freeway on Highway 40.

A huge truck and trailer loaded with grain narrowly missed plunging off Donner Grade Monday morning at 4:30 o'clock.

Lehmans At Ranch— Mr. and Mrs. Ivan Lehman of Shingle Springs are spending their time at their local ranch while their cattle are feeding in the area.

We often wonder if the fire departments in our area are fully appreciated. We do know that when a fire hits close to home, the efforts of the volunteers are highly praised but for the most part the casual observer hears the alarm, determines that his property is not in danger and forgets the whole thing. These volunteers, in the four departments have often prevented disastrous fires in their area and not infrequently respond to calls from neighboring districts threatened by conflagration. These fellows serve without pay and with too little thanks. We can't think of any organization more worthy of the community support and unanimous vote of appreciation than the volunteer firemen. Day or night, winter or summer, they are quick to respond in case of need and do their work with dispatch and efficiency which sometimes would shame much bigger and better organized departments.

Speaking of fires, the forest is getting dryer by the minute and the danger of fire is acute, probably more acute than ever before. For this reason, it is incumbent upon everyone to exercise extreme caution in handling fires, matches and all other burning materials. The forests are ours to enjoy—not to destroy.

Shortcut Work In Placer Is Assured

Action by the Placer County Board of Supervisors last week is believed to have paved the way for completion of the Truckee-Kings Beach cutoff highway.

The board approved a contract with the state for the federal aid secondary road project which now allows the state to advertise for bids for the work.

Bruno Bacci, chief of the county department of public works, said he did not believe the project could be completed this year and said at least a portion of the work would have to be put off until next summer.

In the meantime, work is progressing on the Nevada County portion of the highway which will be completely resurfaced and realigned later this summer.

A portion of the Placer County section was completed last year.

Modernization Of Water System Is To Start In District

Test Well Will Be First Step To Bring System Up To Standard

The first phase of a proposed 5-year modernization program for the water department of the Truckee Public Utility District was authorized by the board of directors at Tuesday's meeting.

Manager Wilbur Bell said this first phase will be the drilling of an eight-inch test well in the vicinity of the McGlashan Springs, a current water supply for the district, by Meyer Drilling Company of Carson City, Nevada.

Drilling will begin in about two weeks, Bell said, explaining that the equipment to be used is of the latest design capable of fast, effective drilling. Test well of the type planned are expected to insure an adequate source of water with a minimum investment.

The five-year program outlined by the directors will include a complete revamping of the present antiquated system, providing not only an abundant water supply but modernization of the entire plant to bring it up to standards to meet the needs of this fast developing district.

Fire Extinguished At Hill Top Lodge

Quick response by the Truckee Volunteer Fire Department last Thursday morning at 3 o'clock is believed to have averted a serious fire at Hill Top Lodge.

The fire started outside the new dormitory building and was spreading fast up the side of the two-story structure when it was discovered and the alarm turned in. The department responded nearly 100 per cent and soon had the situation well in hand.

It is believed that a faulty water heater outside the building started the blaze.

Amnesia Victim Is Taken To Hospital

Authorities yesterday established the fact that the amnesia victim is Arlene LaBonte, of Milwaukie, a divorcee, who had been employed in Los Angeles for the past two years. She has been transferred to DeWitt Hospital for treatment.

Officers are attempting to solve the mystery surrounding a woman picked up near the quarantine station just west of here Tuesday night, an apparent amnesia victim. She was taken to the Tahoe Forest Hospital.

The woman gave the name of Ruth L. Yew, but told officers she did not know where she was from nor where she was going. She was described as being about 32 years of age, weighing from 90 to 95 pounds, dark brown hair, and blue eyes.

The patient wore red pedal pushers and a blue and white blouse. All her clothing is clean and showed little sign of wear. Although she said she had traveled for several days, her shoes were worn only slightly, indicating she had not walked far.

The woman carried a paper bag containing clean clothing, a deck of cards and two books, one dealing with what dreams mean and the other on horoscopes. A New Testament bore the name of Arlene LaBonte and on the same page was written "Relative: Robert Well, 923 Harvard Blvd." There was no city indicated on the address and Mrs. Yew or LaBonte was unable to explain the names.

Two Rescues With Helicopters Are Achieved In Week

Girl Scout, Horseman Are Brought To Hospital With Injuries

A second helicopter rescue within a week in this area was carried out yesterday when Clay Sherman, Piedmont and Carnelian Bay, was brought to the Tahoe Forest Hospital from the isolated area of Phipps Lake, 20 miles west of Meeks Bay, after he fell from a horse.

The victim suffered a broken collar bone, several broken ribs and a fractured clavicle and lay helpless until the helicopter's from Stead Air Force Base responded to a call from an air force survival unit in the area and brought him to the high school athletic field where he was transferred to the Truckee Ambulance and taken to the hospital.

Major F. M. Carney who brought in the injured Girl Scout last Friday piloted the rescue ship.

Sherman's condition is described as good. He was injured about 10:30 a. m. and reached the hospital at 8 last night.

Two helicopters and four pilots from Stead Air Force Base were credited with a daring rescue of an injured girl in the High Sierra Friday afternoon.

The girl, Caryl Simpson, 14, San Pablo, was on an outing with the West Contra Costa Girl Scouts near Paradise Lake when she was caught in a rock slide and her head injured.

Word of the accident was relayed to Stead after efforts to reach the isolated spot by vehicle failed. Major F. M. Carney and Captain Phil Maggart occupied one of the 'copters and Lieutenants John Ogreshok and Jack Herzik the second.

Both craft searched the area of Donner Summit for some time before spotting a sheepherder who was pointing in the general direction of the injured girl. Flying to the spot indicated, Major Carney in the H43B turbo-jet helicopter pinpointed the huge machine to the edge of the lake amid boulders and brush, with the rotor blades extending out over the water.

The injured girl was taken to the athletic field of the Tahoe Truckee High School, transferred to the Truckee ambulance and rushed to the Tahoe Forest Hospital. It was revealed that she suffered only minor concussion and was released after treatment.

The whirling 'copters attracted much local attention and a good sized crowd gathered to watch the landing here.

According to the report, Piche left a note saying he could not face his creditors. His body was found in his automobile parked in a gravel pit in Hope Valley, Alpine County near the junction of State Highways 88 and 89.

Piche owned a restaurant in Tahoe Valley and also worked for a lumber company.

Anyone interested in either of these subjects is invited to attend the next CAP meeting, Monday, August 15 at 7:30 at the Tahoe Truckee High School.

homesites are now in various stages
of completion. Construction under-

way includes blacktopped streets
and a water system to serve the
lots, all of which average approxi-
mately one-half acre in area.

MOUNTAIN PROPERTY PROTECTED IN ACTION

SACRAMENTO—(CNS) — Pros-
pective summer home enthusiasts
or resort operators who want to op-
erate on federal mountain prop-
erty have received good news in
the form of new regulations which
could assure them of remaining on
the property.

Until recently, all leases from
the U. S. Forest Service for sum-
mer cabin sites or businesses were
on revocable leases. In the case
of a number of home owners and
one business near Donner Summit,
they were given notice their leases
had been cancelled and were ordered
to remove the improvements from
the property.

The new U. S. 40 freeway will
cut through the area now occupied
by the homes.

The home owners and the busi-
ness objected that they should be
paid for the value of their improve-
ments.

Under the new forest service
regulations, prospective home own-
ers will have a choice of the old
type revocable lease or may re-
ceive long-term leases, 25 to 30
years. The revocable lease still
might be recommended for prop-
erty in remote areas, where there
was little chance of future develop-
ment and where the lessee would
not be tied down to a long lease.

However, for those persons who
wanted to build homes in more
accessible areas, the 25 to 30-year
term lease would provide the
chance for them to get their
money's worth out of the improve-
ments before they could be ordered
to move them.

Mrs. Louise Geier reports that the Red Cross swimming classes at Kings Beach were completed Friday, July 26. There were 93 children participating in the classes; 45 beginners; 20 intermediate; 17 advance and 11 junior life savers. All were issued certificates and the junior life savers got emblems. Teacher Ann Trammel conducted a most successful season. Mrs. Geier gives credit and thanks to the Red Cross which donates \$100 each year toward this program; and to the Women's Club of Tahoe; the Soroptimists Club; Lake Tahoe PTA; Lake Tahoe Emblem Club No. 347, and the El-Tahoe Shrine Club for their donations toward support of this worthwhile program.

Mrs. Nell Murphy is selling her San Francisco home and has purchased an attractive place in Brentwood close to the homes of her

two daughters.

Guests of Mr. and Mrs. Phil Geier last week were Mr. and Mrs. Clifford Wells of Piedmont. Granddaughter Susan Bailey of Arcadia is with them this week.

Mrs. Harriet Hemenover of Santa Rosa is visiting her sister, Jean Calender of Homewood. Recently Jean and Ben were delighted by a visit from son and daughter-in-law, Bill and Pat and granddaughter, Barrie, just four months old.

Mrs. Ralph M. Peer of White Firs has her brother, Mr. Robert Iverson, and Mrs. Edwin L. James of New York as guests.

The John Wollmans of Marin County are at their Fallen Leaf home and recently entertained John's sister Edith and Jim Jenkins.

The Larry Harts of Texas and Meeks Bay trekked to Virginia City last week to attend the John Godfrey West cocktail-supper party honoring members of the San Francisco Opera Guild.

The Brooks Walkers entertained Dr. and Mrs. Ralph Soto-Hall, who previously spent some time with

the Hillyer Browns. The Frank Fullers have taken Miss Else Schilling's Tahoe place, entertaining house guests each weekend. Mr. Fuller usually flies them up in his seaplane.

John Drum and family are at their Tahoe place for August.

The James K. Pearsons of Berkeley are at their Rubicon home. Announcements have been received of the wedding on August 28 of Sally (Sarah Joan) Anacletio, daughter of the Albert S. Anacletio of Lafayette and Tahoma, to Loyal Harold Hall, Jr.

Mrs. Grace Sartor enjoyed a visit from her sister, Mrs. Warren Hogan, and her son Sam Brown recently. Andre Williams of Tahoma Resort recently rescued a too-enthusiastic young fisherman, who got excited and dropped off the pier. Andre heard his cries, as he clung to the pier, and pulled him in.

Visiting the R. A. Iveys of Rubicon are the Frank Bonanos and daughter Margaret of San Jose. Mr. Bonano is with the San Jose Mercury News. Other recent guests of the Iveys were Miss

Marian Epperson, credit manager of the Emporium, Stevens Creek branch and Mrs. Virginia Cadman buyer for the Emporium stores.

The Ray Graters of Tahoma enjoyed a visit from her sister and husband, Mr. and Mrs. Fred Dierksen of Oklahoma. Naturally, a trip to Squaw Valley, Donner Lake, Reno, Virginia City and Carson City were on the agenda and greatly interesting to the Dierksens.

On honeymoon in Hawaii are Mr. and Mrs. Thomas Edwin Oliver (Diane Valerie Gordon), who were married August 5 in Oakland, at St. Paul's Episcopal Church. Among the maids of honor was Mrs. William Letts Oliver, III. Best man for his brother was William Letts Oliver, III. The bride is the daughter of Mrs. George Rafter of Van Nuys and William Gordon of Long Beach. A reception at the Oliver home followed the service. The couple will live in San Francisco.

Ralph Stanley is at work in earnest on his and Mabel's new home near Sunnyside. Ralph has a good start on the garage.

Vacationing at Skyland recently were Dr. and Mrs. R. K. Iverson and son Chris of Yuba City. Their guests were Dr. and Mrs. Calhoun and family of Honolulu; Dr. and Mrs. Galt of San Francisco; Dr. and Mrs. Ben Wolfman of San Francisco; Dr. Ermarine Edwards of Yuba City, and Mr. and Mrs. Dick Atkins of Robbins, whose son, Dick, Jr. spent two weeks visiting Chris. Roland Iverson, Jr. is scheduled to play football with the All-Star team of northern California at Sacramento on August 20, practicing two weeks prior to the game at Chico. Roland enters U. C. at Berkeley this fall.

The Noel Browns of San Jose spent a week at Skyland with their son Glen.

The Dennis DeMaris, Dianne, Tony and Dennis of Woodland and Skyland entertained Mr. and Mrs. Nash of Woodland and celebrated Mr. Nash's birthday with a champagne party.

The Henry Springers, and son George of Palo Alto spent a week at their place, entertaining Mr. and Mrs. Van Epps of Taft. The

Springers gave their new boat "Unkypunk" a good workout.

Dr. Ermarine Edwards of Yuba City is building an unusual home at Skyland.

Ruth, Dr. Holmoe and daughters of San Lorenzo spent some time later at their cabin, with Mrs. Robofogel and children, also of San Lorenzo.

The J. H. Straumans of Vacaville operated a general store at Vacaville for many years and has now retired from active business.

Harold and Mrs. Podmore of Honolulu are also at their Skyland summer place.

Bud and Gladys Bell and friends of Los Angeles enjoyed a week in the cabin of Virginia Pittman and Pat Hallman of Inglewood.

Mrs. J. W. M. Lund of Tahoma is spending some time at her lakeside home. With her are Mrs. Mary

ARE YOU A FREEZER FRAUD VICTIM?

The July, 1960 issue of "Changing Times" The Kiplinger Magazine devoted to Personal and Family Business—does not accept advertising—has this to say: "FREEZER FRAUDS. Almost from the time they originated, freezer-food plans have provided rich takings for phony elements in the trade. The angle has always been pretty much the same: Join the plan, get a freezer practically free, buy your food wholesale. Too late, the joiners discover the price of the freezer is twice what it should be, the food costs more and is not as good as in the local supermarket. The contract is one you can't get out of."

MISS FORSTER WEDS RONALD COTTRELL

By LLOYD W. GAY

SODA SPRINGS — Enjoying a Hawaiian honeymoon are Mr. and Mrs. Ronald Charles Cottrell, nee Jacklyn Forster, who were married in a double ring ceremony in the King of Creation Chapel of Squaw Valley on July 31. The wedding attended by close friends of the family and relatives, was performed by the Rev. Franklin S. Evans. A reception immediately followed the ceremony was held at the Donner Summit Lodge. Serving at the reception were Nancy Taylor, Lynne Salisbury, Kay Stoddard, all of Auburn, and the guest book attendant was Linda Robinson of Whittier.

The bride wore a street length gown of white Swiss eyelet and a small hat veil trimmed with lilies of the valley. She carried white flowers on a Rainbow Bible.

The bridegroom's sister, Carole served as the maid of honor. She wore a sky blue gown of dotted Swiss with a matching flat bow headpiece. The bridesmaid, Jeanne Cannon of Newcastle, and the flower girl, Maxine Barry, age 3, both dressed like the maid of honor.

The best man was Robert Herron of Sacramento. Bob Forster, brother of the bride, and Lynn Kreutzjans, cousin of the groom, were ushers.

The bride, a graduate of the Placer Union High School and Sierra College, was a member of Phi Chi Gamma sorority. She is a past worthy adviser of the Auburn Assembly, Order of Rainbow for Girls.

The bridegroom was graduated from the El Camino High School and attended the American River College and Sacramento State College.

The couple plans to establish a home in Sacramento where Ronald is stationed with the air force.

GUIDANCE TESTS AT COLLEGE IN AUGUST

James E. McClusky, registrar of Sierra College, announced the schedule for guidance tests which must precede registration for the fall term of the 1960-61 college year.

While many applicants for registration took the tests last spring, those who did not, must take them before they will be accepted for registration during the fall semester.

This year students will have two choices. They may divide the four tests among two evenings, or take all four on the same day.

The schedule follows:
August 24: American Council of Education and Reading at 7 p. m.
August 25: English Co-op and Composition at 7 p. m.
August 26: ACE and Reading at 9 a. m. Co-op and Composition at 1:15 p. m.

All tests will be administered at the Little Theater on the campus at Auburn.

DRIVING ERRORS ARE FOUND AS SCHOOL FOR STATE STARTS

After the initial two months, participation by District III employees of the California Division of Highways in the new statewide driver training program reveals seven basic errors consistently cropping up on the score sheet of the average driver.

The district includes 11 counties in the central valley and Sierra mountain area, and employs a total of about 1,000 persons. The district office is in Marysville.

The testing, training, and driving, which will include all the 90,000 state employees who use state vehicles, is the result of a study by the safety advisory committee appointed last year by Gov. Edmund G. Brown.

In a letter to state agency heads implementing the program, Brown noted that the state operates a fleet of 21,000 vehicles and that vehicle accidents and employee injuries cost the state \$2.5 million yearly, and said, "there is much room for improvement."

The committee's recommendation was instructional and testing program called "defensive driving."

District director of the program is District Safety Supervisor O. G. "Red" Alexander of Marysville, with William R. Taylor, assistant highway engineer of Linda, as trainer. Classes are conducted daily for 16 to 24 persons.

What's defensive driving? It's expecting the unexpected. It's keeping your eye on the other guy.

The good defensive driver commits no errors himself. But that's not enough. He must also allow for lack of skill, inattention, and poor attitude on the part of other drivers. The key to successful defensive driving is anticipation.

The training program consists of four hours of classroom plus an observation driving test through Marysville and Yuba City.

Two class hours cover the purpose and methods of defensive driving, and two are devoted to psychophysical testing, reviewing driver habits and emotions, accident analysis, and discussion of each person's road test.

And the road tests themselves are not without exciting moments as recently when a lady launched herself from a curb to cross the street, looking neither right nor left, and is today uninjured due to the alertness of the driver. Defensive driving in action.

What about those seven most common driving errors? They line up as follows: The average driver making the observation run 1) drives 5 to 10 mph too fast, 2) drives with arm in window, 3) gives inadequate signals, 4) stops in pedestrian lanes, 5) follows too closely, 6) does not always come to a complete stop, and 7) is unnecessarily nervous during the road test.

Training and testing will continue until June, 1961 by which time all district employees holding an operator's license will have taken the course. Future employees will receive the training during their probationary employment period.

There are more automobiles in Los Angeles County than in any one of 42 states in the United States.

A sprinkler with an opening 3/4 inch wide, running at full pressure will use 300 gallons of water an hour. This will cover a lawn or garden space of 2500 sq. ft. with 12 tons of water in ten hours, the equivalent of one inch of rainfall. In extremely hot weather this is enough sprinkling for one week—50 tons of water a month. In cool weather sprinkle less often. If a sprinkler runs over two hours every day, it is water wasted.

Equine Millionaires

Seventy-odd years ago the racing world was agog over the prowess of Miss Woodford, the first \$100,000 winner in America, and Iroquois, American-bred Epsom Derby winner which had earned a like amount in England. Today we are similarly impressed by Round Table, Nashua and Citation, each of which has earned over \$1,000,000.

It remains to be seen whether in 50 years or so the golden records of this trio of millionaires will, like those of Miss Woodford and Iroquois, have turned to yellowing pages in the record book.

It wasn't too long ago when a horse that earned \$100,000 in his lifetime was newsworthy. Today, no less than a

dozen have earned more than \$100,000 just since the first of the year, Ballyhatche topping the list with \$439,045.

These days it is possible for a horse to earn \$100,000, or the greater part of it, in any of 89 races. Four horses will do so on July 30. Miss Woodford raced 48 times, winning 37, to earn \$118,270 in her lifetime. On July 30 the Delaware Handicap, for fillies and mares, will be worth a gross of \$150,000. Three other \$100,000 races that day are: Aqueduct's Brooklyn Handicap, the Arlington Park Futurity and Monmouth Park's Sorority Stakes.

Everyone Welcome
Sunday School: 9:30 a. m.

The meaning of God's supremacy and all-power will be explained at Christian Science services this Sunday.

Scriptural selections in the Lesson-Sermon entitled "Soul" will include the following from Leviticus (26:3, 4, 11): "If ye walk in my statutes, and keep my commandments, and do them; then I will give you rain in due season, and the land shall yield her increase, and the trees of the field shall yield their fruit. . . . And I will set my tabernacle among you; and my soul shall not abhor you."

God's power is also brought out in readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy which include this statement (330:11-12): "God is infinite, the only Life, Substance,

DONNER DOINGS

By VIRGINIA O'BEAR

Mr. and Mrs. Reuben Maki and three daughters from Casper, Wyoming are visiting the William Knapp's for two weeks. Mrs. Maki is the sister of Mrs. Knapp and all are thoroughly enjoying their first visit to Donner Lake. They like Donner so well that they may try to find a summer home here. Before returning home the Maki's plan to visit another sister Mrs. Lydia Hughes of Healdsburg.

Mr. and Mrs. George Hansen are enjoying the visit of George's brother Frederick, sister-in-law, Trudy, and children Sandy, Frankie and Linda before they go to Washington, D. C. for six months then on to Spain for three years. Frederick is a master sergeant in the air force and has been stationed at Sacramento.

Evelyn Lawrence has been spending a few weeks at Donner Lake, Tahoe and she is from the International House at Berkeley. She has been studying high Russian language while here vacationing as she will be an interpreter for the

United Nations assemblies. Miss Lawrence is formerly from Fort Walton Beach, Florida, speaking many languages.

Willie Wilbur is back home after a visit in the bay area and is now busy helping his parents, Virgil and Dollie Harris, put on the paint of their recently purchased home. Dollie is also kept busy with her little grandson who will be visiting for a little while. They are getting settled now and Dollie is feeling much better from her back injury.

Mr. and Mrs. Robert Pankoke were away for ten days enjoying various parts of the country. They were at Crater Lake, Oregon and Martha said they had a wonderful time. Their son David visited with the Pinkhams in Eureka and had a fine time salmon fishing. Diane kept herself busy at a Girl Scout camp while the folks were away. This week the Pankokes have guests from Desert Hot Springs. They are Mr. and Mrs. Russell Tarbuton, former Truckee residents.

Mr. and Mrs. Bob Ziener and small daughter visited us over the weekend and left their F racing runabout with us until next weekend. Bob is from Richmond and won second place in the regatta

at Lake Almanor last Sunday with his C-550 Rib Cracker. We were unable to attend the races but hear they were very exciting. Janet Herrick won second place after a spectacular flip with another boat in the first heat. She won second place with points she earned in the second heat and they say she was way out in front and no one could catch up with her. All drivers will appear at Pyramid Lake this coming Sunday to try to win the divisional championships, that is all drivers who won first, second and third place in the Donner Lake regionals last month. This should be a very exciting regatta as winners will then go to Bakersfield for the national championships.

The Donner Lake Firemen will meet at the fire house this Thursday night for a workout and drill. All members are urged to attend and to be there by 8 o'clock.

The Ladies Auxiliary of the Donner Lake Volunteer Fire Department will meet next Thursday night at Lake Tahoe. Hostesses

STRIKES & SPARES

BY JOE WILMAN
"COURTEOUS CARL"
PRACTICES BOWLING
COURTESY

Bowling courtesy is a phase of the game which can't be stressed enough. If more of us practiced it, like my friend "Courteous Carl," we'd all enjoy the game more.

For instance, Carl never strays outside the width of his own approach. He doesn't swing his arms or legs over into the adjoining approach to disturb the bowlers there. Note this in the illustration.

Carl is also careful not to waste time when he's up on the approach. He doesn't wait until all the other lanes are quiet before he bowls. He waits only for the bowler on his immediate right.

Carl never bothers or distracts other bowlers when they're up on the approach, either. He knows how it bothers him, and he doesn't want to bother anyone else.

Another thing that Carl practices for others is to get away from the foul line after his ball struck the pins.

He doesn't jump around there, stamping or otherwise annoying bowlers on other lanes. When his ball is in the pit, he comes all the way back to wait for its return. He never stands up near the foul line waiting for his ball to return—this distracts other bowlers.

"Courteous Carl" figures that bowling courtesy is merely an extension of the Golden Rule. He just treats other bowlers as he wants to be treated himself. (Copyright, 1960, by National Newspaper Syndicate)

The first public museum in America, the Charleston Museum, was organized in South Carolina in 1773.

Results of a survey conducted by Lachlan M. Richards, chief of the California Division of Small Craft Harbors, show there is practically no enforcement of state or county boating regulations on Lake Tahoe.

The impromptu survey was made at a meeting in Al Tahoe which was called by Richards in an effort to work out uniform boating regulations among the five counties and two states which share Lake Tahoe waters.

The official listed the following results:

1—U. S. Coast Guard station's four men in Kings Beach who are responsible primarily for search and rescue work and safety inspections.

2—El Dorado County sheriff's office has one deputy on duty during weekends in a rented boat to patrol congested areas and has budgeted funds to obtain a boat.

3—as a result of confusion as to who is responsible for enforcement of boating regulations at Tahoe, Placer County has taken its one boat and transferred it to Folsom Lake.

Officials of both California and Nevada said their policy is hands off so far as marine enforcement is concerned.

Lieutenant O. P. Ledford, commander of the California Highway Patrol's Truckee substation, said the patrol is looking for young men from 21 to 31 years of age who are interested in a career in professional law enforcement.

A civil service examination for state traffic officer will be held throughout California on September 24, he declared. "I will be glad to talk with any young man who is interested and thinks he may meet the requirements."

Lieutenant Ledford noted that in addition to the age limit, the applicant must be a citizen of the United States and a resident of California. He must have a high school education or its equivalent, good health, normal hearing, and normal vision that may be corrected by glasses. Height limits are five feet nine inches to six feet six inches.

"Application forms for the examination are available at our office at Truckee," Ledford said. "The final date for filing the application is August 26."

MRS. GUNKEL AMONG GRADUATE NURSES

TAHOE VISTA — Mrs. Elizabeth Ann Gunkel, wife of Gary Gunkel of Lake Tahoe is among the graduates at the Highland School of Nursing at Oakland on Saturday, August 13. She has been a student body officer.

Commencement exercises will be held at the Highland Hospital auditorium. Senior activities included a faculty dinner, sneak day, a formal dinner and a graduation tea.

WOMEN'S CLUB WILL SPONSOR FOOD SALE

TAHOE CITY—A food sale to be held Friday, August 12 between the hours of 10 and 1:30 o'clock in the Riviera Shop at Tahoe City is being arranged by members of the Women's Club of Tahoe.

Mrs. William Wilt will preside at the September 1 luncheon meeting to be convened at 12:30 noon in Homewood Resort.

LOVELY BEVERLY GUNKEL, 18, of Lake Tahoe, Miss Placer County at the recent county fair, is shown trying out the new "Princess" telephone, the first major home change in ten years. Beverly, a sophomore at Chico State College, praised the new phone, which weighs about half as much as other phones and is about half the size. She particularly admires a night light in the dial. Beverly plans to enter the Maid of California contest at the California State Fair which opens in Sacramento on August 31. The candidate enjoys nearly all sports and plays piano as her hobbies, and probably would like to add talking on a new "Princess" telephone, private line, of course.

LAX BOAT LAWS ON LAKE ARE REPORTED

Results of a survey conducted by Lachlan M. Richards, chief of the California Division of Small Craft Harbors, show there is practically no enforcement of state or county boating regulations on Lake Tahoe.

SCHOOL ATTENDANCE SHOWS MAJOR GAIN

A report on attendance in the Placer County school system shows that for the ending of the year 1959-60, there were 1356 students enrolled in the five schools.

The report, prepared by Superintendent Al Bequette shows there were 321 students enrolled in the Tahoe Truckee High School with 1,035 in the four elementary schools of the district.

The county as a whole showed a gain of 5.29 per cent over the 1958-59 year, with a gain from 13,239 to 13,978.

WHAT'S DOING

L. R. deGallery, your Telephone Manager in Tahoe City

There's exciting news this month.

We're introducing a handsome new telephone called "The Princess."

Hardly bigger than your hand, the Princess takes only about half the usual space.

When you lift the receiver, the dial lights up. Or at the flick of a

switch, the dial glows as a soft night light so you can find the phone easily in the dark. The Princess comes in attractive colors that are perfect for any room in your home—white, beige, pink, blue and turquoise. This new extension phone costs just pennies a day after a one-time charge. You can see and try it out at our business office, and you can order it there or through your telephone service man.

Bob Pearson, our Installation Foreman, is presenting Mrs. Elizabeth Endicott with the new Princess set at the North Shore Club. Mrs. Endicott who is the grandmother of our Mary Beth Endicott rode in similar stagecoach when she was a school teacher in Oregon. The North Shore Club is the first lodge to install Princess sets in its rooms.

IN THE BOARD OF SUPERVISORS IN THE COUNTY OF NEVADA, STATE OF CALIFORNIA

Regular Meeting August 1, 1960
Present: John T. Trauner, Clerk
Wm. J. Cassettari, Deputy
District Attorney

The meeting was called to order at 10:00 a. m. by the Chairman of the Board and it was noted that Supervisor Jerome C. Coughlan was absent and all other members of the Board were present.

The minutes of the previous meeting were read to the Board and a motion was made by Supervisor Smart, duly seconded and passed unanimously, approving the minutes as read.

Supervisor Smart, at this time issued the following statement insofar as the reference to the proposed doe hunt in Nevada County: It appeared that the Board of Supervisors took no action on a letter protesting a doe hunt, and Supervisor Smart was desirous of having it inserted into the minutes the fact that the District Attorney's Office informed the said Board of Supervisors that the legal date of protest had passed at the time the letter was received, therefore the Board of Supervisors were in no position to file a protest.

A motion was made by Supervisor Robinson, duly seconded and passed unanimously, approving the Claims Register as presented by the County Auditor, and authorizing the following warrants to be paid.

POP SMALL TO OPEN SACRAMENTO OFFICE

WASHINGTON - U. S. Senator Thomas H. Kuchel of California has announced the transfer to Sacramento of M. F. ("Pop") Small, his administrative assistant for seven years. Small will open a state office for Kuchel September 1.

He will be replaced as administrative assistant in Washington by Ewing Hass, former deputy state controller. When Senator Kuchel came to Washington in 1952, Hass accompanied him to serve several months as administrative assistant and subsequently was the senator's

release from Assessor Lloyd Geraldson in Auburn and Assessor Charles Kitts at Nevada City reveal.

The 5th Nevada County district, embracing the Truckee and Donner area, registered the heaviest tax-base increase percentage-wise of any area in the county. With a boost of 8.97 per cent, the local region went up from \$3,604,920 to \$3,928,550 in a year.

Elsewhere in Nevada County, District 1 (Nevada City) was up from \$2,741,350 to \$2,860,980 or 4.36 per cent. District 2 (Grass Valley) rose 6.07 per cent, from \$7,072,450 to \$7,501,770. District 4 (western Nevada County) was up 6.32 per cent, from \$2,181,130 to \$2,319,100. District 3 showed a decline of 5.52 per cent, sliding from \$858,860 to \$811,400.

All subordinate districts in the fifth district also showed similar increases in assessed values, Kitts reported.

The 5th District of Placer County, including Forest Hill and Tahoe City, rose from \$11,137,385 to \$13,809,360 to lead the supervisory subdivisions of that county. District 4 which embraces the North Tahoe communities of Kings Beach, Brockway and Tahoe Vista, went up from \$10,568,450 to \$12,111,875.

These two east-county areas accounted for \$4,215,400 of the total \$9,949,650 boost for all of Placer County, according to Geraldson's figures.

The assessments cited do not include property owned by state regulated public utilities, which are assessed by the state board of equalization.

At the same time, Geraldson announced reappraisal work for 1961-1962 started last week in the North Tahoe region.

Recent legislation requires a reappraisal of the county at least once every three years, he said.

Six appraisers have begun the Tahoe area survey and will be on the job there for the next three months. Later in July, the team will be established in the new county building, where they may be contacted through the building inspector's office when they are not in the field.

Come back again and look around
To see how things did go.

As I come round the hill
If must be the Irish in him
That is staying with him still.

I wonder too if "Johnny"
Would be standing by the door
Asking, "where's the smitty?"
As he's always done before.

And "Bill" the town surveyor
Trying to dodge me on the walk
I didn't want the finished map
I only want to talk.

And "Dick" the Donner Laker
With his sagebrush allergy
With his face and eyes so swollen
That he can hardly see.

And other men were standing there
Outside the fine glass doors
Watching the crowds go to and fro
No different than before.

I recognize so many
Tho I don't remember names.

The people seem so friendly
And the faces are the same.

I took the bus to the airfield
I had to wait in line
The people rushing here and there
With hardly any time.

With finished eighteen greens
With tennis courts and tournaments
A picture from my dreams.

As I can plainly see
It's growing, growing, growing
'Til there's hardly room for me.

FITZGERALD

Continued from Page 1
left Bonn to die and Young helpless. Forest service personnel rescued Young when they were attracted to the scene by a fire he built in the brush nearby.
Bonn lived at a small hotel on Powell street in San Francisco and was known as a friendly, jovial man without enemies. He returned from a government job in Guam a year ago and was seeking to invest in a restaurant.
Young is a first aid man with a logging company in northern California.
Fitzgerald was convicted on a bad check charge in Alameda County in 1958 and sentenced from one to 14 years in San Quentin. He was paroled in March and had been living with his mother in Eureka until three weeks ago when he left just ahead of the issuance of a warrant charging him with cashing several bad checks.
He is described as being five feet, 10 inches tall weighing 190 pounds, with reddish, balding hair. The 1958 Vauxhall station wagon which the suspect was driving was reported to have been stolen in San Francisco.

RENO—Murder suspect Stanley W. Fitzgerald, who is being sought in connection with a killing and robbery near Truckee last week, was in Reno about 24 hours after the crimes were committed, Reno police were informed.
Officers said they had been informed Fitzgerald had a drink in a local bar about 7 p. m. on Thursday, almost exactly a day after a vast manhunt was launched for him in this area. The police said the informant claimed he had known Fitzgerald for 21 years, and he realized this was the wanted man when he saw the picture printed in a local newspaper last weekend.
Fitzgerald is wanted in connection with the murder of George Bonn, 58, of San Francisco, near Truckee. Shot in the leg in the same incident was M. J. Young, 41, of Lewiston, who gave police a description which officers said fit Fitzgerald.

To Follies—
Mr. and Mrs. Lauren Russell and Linda and Randy returned from San Francisco where the Ice Follies was the highlight of the visit.

WINNING SMILE — Beverly Gunkel poses with some of Placer County's rich fruit crop as she prepares for her next appearance in a series of beauty contests. Already the holder of various local titles, the Lake Tahoe miss is Placer's entry in the Maid of California titles, the California State Fair, August 31 through September 11.

BOARD VETOES MOVE BY PLACER PLANNERS

AUBURN—The board of supervisors have vetoed a county planning commission proposed amendment to control the location of temporary amusement type businesses in the Lake Tahoe area.
The commission had recommended businesses such as skating rinks, pony rides, outdoor concessions, miniature golf courses, trampoline centers and other such operations not be allowed within 100 feet of any existing motel or residences.
In other business, the supervisors approved a request by the board of freeholders to hire the firm of Griffiths-Kroeger, Inc., of San Francisco as consultants to draft a proposed charter for the county. A representative of the firm will attend 12 meetings of the freeholders to furnish data and assist in the drafting of the document. The service will cost \$3,000.
